Re: Unauthorized Registration and Use of Domain Name: UNICOM.COM

Dear Mr. Rosenthal:

UNICOM Systems, Inc. adopted and has used UNICOM for its computer software business for more than nineteen years. We are also the owner of United States trademark registration No.2308224 for UNICOM.

It has come to my attention that Unicom Systems Development is the registered owner of the domain name UNICOM.COM. My company's rights are well established and your registration of our trademark as a domain name is in violation of those rights. I am entitled to seek treble damages for this type of infringement as well compensation for costs and expenses, including attorney's fees. Furthermore, it is also apparent that there is a reasonable basis to invoke the remedies provided under the Anticybersquatting Consumer Protection Act.

I am contacting you prior to authorizing my attorney to file suit in order to resolve this matter without the needless expenditure of time and money in litigation. Please contact me without delay in order to discuss whether a non-litigated resolution to this matter is possible.

Sincerely,

Corry Hong
President and CEO
UNICOM Systems, Inc.
